### TRADUCTION FRANÇAISE SIMULTANÉE PROJÉTÉE SUR ÉCRAN

#### ABOUT THE LECTURES

In this seminar we will be exploring two  
 fascinating and important remedy groups.

**Drugs** pervade our society and many  
 patients are in a “drug” state. This can  
 take many forms: being numb or absent,  
 feeling invincible or euphoric, or having  
 frank delusions.

We will compare the three main types of  
 drugs - Narcotics, Stimulants and  
 Hallucinogens - and see cases from each  
 group.

**Gems** are an exciting and relatively new  
 addition to our materia medica. Gem  
 patients can feel locked into a life they  
 do not want, with deep feelings of being  
 stuck, especially in their relationships.  
 There is a desire to bring their true nature  
 out from the darkness into the light and to  
 express who they really are. We will study  
 the general themes of the group and see  
 cases of different gem remedies, including  
 Emerald, Sapphire, Diamond, Pearl and  
 Opal.
