

How to enter an Activation Key

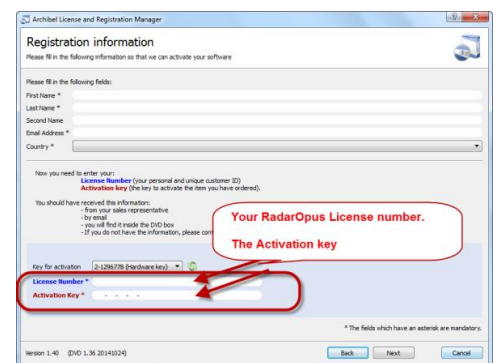

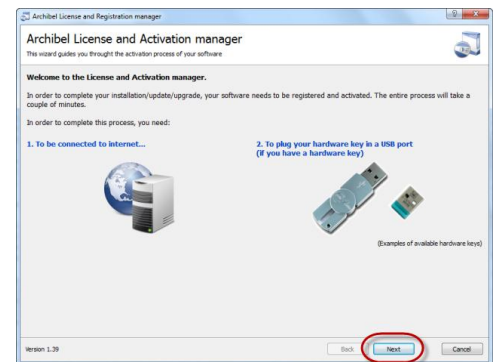

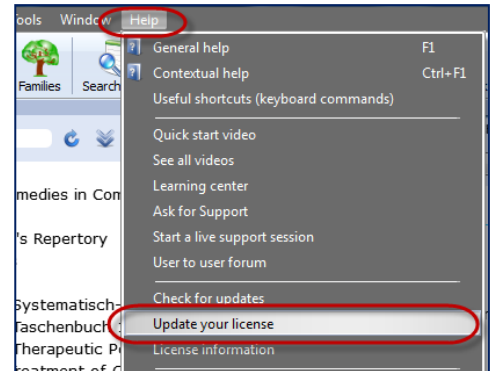

For example after purchasing a new module, document or library
Or for a temporary evaluation period

Dear RadarOpus user,

You receive hereby you're **Activation Key**. Please follow the steps described below to enter it.

Attention: You should check that you are running the most recent RadarOpus version, if after installation and restarting RadarOpus the document or module is not yet present.

- From the menu bar go to **Help**,
- then select **Update your license**.
- Then continue with the button **Next**.
- Then enter the information of the mandatory fields
 - First name
 - Last name
 - Email
 - Select our country
- In the last two fields enter:
 - Your RadarOpus **Licence number**
 - The **Activation Key**
- Then press Next to register.

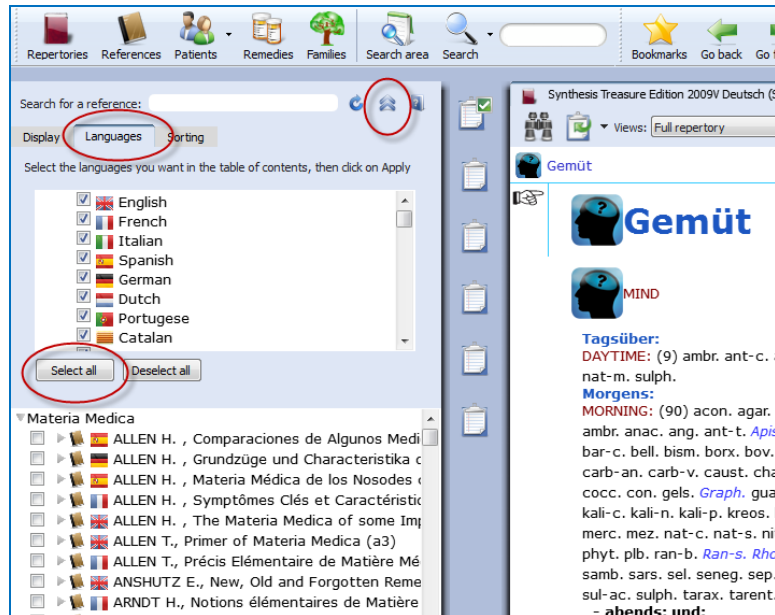

Show other languages

If you want to see documents in all language, make sure you check both local options in Repertories and especially the References: and select **All Languages**.

For example:

- If you have purchased a module in a different language
- If you want to see all language documents during a free tryout period

- Open the local options
- Select the Tab languages
- Click on Select all

How to contact technical support

If you need help, please contact your local representative or contact directly the technical support.

The fastest way to get help is to enter a technical support request via our **Ticket system**:

Go to: www.archibel.com/archibel-get-support.html

Then select: “**Please click to contact support via our Contact Customer Service**”

STEP 2 - Your question is not answered
